For questions contact cvantassel@arkhospitals.org.

WHO WE ARE

The AAHE was established on April 23, 1966. The AAHE assists members in gaining and maintaining leadership in their profession and through collective effort advances the professional standard of health care engineering.

GOALS & OBJECTIVES

- Promote the interest of health care engineering as a profession, including facilities, safety, security, clinical, telecommunication, and biomedical engineering.
- Be devoted to the exchange of information concerning the everyday problems of hospital-related engineering.
- Share knowledge and information required in the profession of health care engineering by means of regularly scheduled programs, newsletters, and other educational means.
- Be associated for the advancement of scientific and technical knowledge in the profession of health care engineering.

REWARD OF MEMBERSHIP

- The AAHE represents a wealth of accumulated experience and knowledge to benefit from.
- Educational programs for hospital facilities, safety, security, clinical, telecommunications, and biomedical engineering. Special programs tailored to small hospitals. Newsletter with technical articles and valuable professional information.
- Scholarship grants for dependent children of principal members or spouses.
- Annual Meeting and awards recognition with a trade show by AAHE business partners.
- Keep up with the latest technology, equipment, and methods through AAHE members.

OUR MEMBERS AGREE

Building relationships with peers is vital in this demanding profession, and sharing experiences and ideas, from hospitals big and small, not only benefits and fosters your professional growth but makes meaningful contributions to health care engineering in the state of Arkansas.

MEMBERSHIP DESCRIPTION & BENEFITS

All AAHE members receive Personal Membership with the Arkansas Hospital Association (AHA), a subscription to the quarterly Arkansas Hospital magazine, liaison with the AHA state chapter, membership rosters, and discounted registration fees for educational events.

Principal Member

\$65.00 per year

Principal members are able to vote and hold office. Membership is open to engineers employed in health care, who hold supervisory, or executive responsibility for, any phase of operations maintenance and/or control of fixed facilities including clinical or telecommunications equipment, biomedical services, and/or safety/security responsibilities. Maintenance supervisors from nursing homes, long-term care facilities, or out-of-state hospitals may apply and be considered on a case-by-case basis by the AAHE Executive Board.

Associate Member

\$75.00 per year

Membership is open to those persons employed in professions other than health care engineering, but who have an interest in the purposes and activities of AAHE.

Student Member

\$25.00 per year

Membership is open to full-time students in the engineering field.
